Margie A. Marquez

IT Student & Aspiring Web Developer

PROFILE

Third-year Information Technology student at City College of Calamba with a foundation in web development, networking and system administration, and a TESDA NC II holder in Computer Systems Servicing. Strong at analyzing problems, breaking complex tasks into smaller steps and working through them patiently. Values clear communication and learning from feedback, and is eager to contribute to meaningful IT projects.

EDUCATION

Information Technology 2024 – Present
City College of Calamba · 3rd Year
Focus: web development, networking and system administration.

Senior High School – HUMSS Strand
Humanities and Social Sciences
Developed communication, research and writing skills through group presentations and collaborative projects.

CERTIFICATION

National Certificate II – Computer Systems Servicing Jul 2026 – Jul 2031
Technical Education and Skills Development Authority (TESDA)
Installing and configuring computer systems, setting up networks and servers, and maintaining and repairing systems and networks.

Cisco Networking Coursework Ongoing
Cisco Networking Academy · City College of Calamba
Configuring, testing and troubleshooting computer networks using Cisco tools.

PROJECTS

Kopi; Calamba – Thesis Web System 2025 – Present
Full-Stack Developer · kopi-ssm6.onrender.com

- Building a web system for a Calamba coffee shop to replace manual processes; live online and still in development.
- Developed both front end and back end; planned designs in Canva with reference from Dribbble.

BooksHeaven – Online Bookstore Website Dec 2025
Front-End Developer · IT 221 Final Group Project · dhel-mm.github.io/bookstore

- Designed and coded the user-facing pages, including a sky-themed log-in page with consistent branding.
- Published the site online with GitHub Pages.

Graphic Design Work – Adobe Photoshop Aug – Sep 2026

- **MINISO** typography brand poster; **Brew Haven** coffee shop promotional illustration; **PAW MM** personal logo with three variations.

EXPERIENCE

Student Web Developer 2024 – Present
Personal & Academic Projects · Calamba City, Laguna

- Created web projects using HTML, CSS, JavaScript and MySQL; managed and published source code with Git and GitHub.
